**SHRINKAGE
IN WHEAT.**Area Under Cultivation 3,563,000
Bushels Less Than Last
Fall's Estimate.**GOVERNMENT REPORT
FOR MAY.**

Washington, D. C., May 10.—The monthly crop report of the Agricultural Department is as follows:

Returns to the statisticians of the Department of Agriculture, made up to May 1, show the area under winter wheat in cultivation on that date to have been about 20,555,000 acres or 3,563,000 or 11.8 per cent less than the area estimated to have been shown last fall. The reduction in acreage in the principal states, owing to winter killing and the ravages of the Hessian fly, is as follows: Indiana, 1,008,000; Ohio, 969,000; Michigan, 317,000; Pennsylvania, 158,000; Illinois, 137,000 acres.

For the area remaining under cultivation the average condition on May 1 was 88.9. While this average condition is 6.2 points above the mean of the averages of the last ten years and has been exceeded only three times in fifteen years, it must be remembered that the acreage plowed up, cut for forage (except in California, where it is not yet definitely ascertained), or otherwise abandoned, has been entirely eliminated. The high averages of condition reported last month for Kansas, Missouri, Texas and other more or less important wheat producing states that have been fully maintained, and on May 1, nearly one-half of the entire winter wheat acreage remaining under cultivation reported a full normal or still higher condition.

The average condition of winter wheat on May 1, was 88.5, as compared with 85.2 on May 1, 1899; 84.0 on May 1, 1898, and 82.7 the mean of the May averages for the last ten years. Pennsylvania and New York, with 42.1 per cent of the total winter wheat acreage of the country, reported conditions 11 points and 1 point, respectively, below their 10 year averages. Kansas, which ranks third in the scale of acreage, reports the high average condition of 107, the highest reported on May 1 of which there is any record.

The average condition of meadow mowing lands on May 1 was 90.5, against 84.9 on May 1, 1899; 92.9, on May 1, 1898 and 91.3, the mean of the May averages of the last ten years.

The average condition of spring pasture on May 1 was 91.5, against 83.5 on May 1, 1899; 91.2 on May 1, 1898, and 90.9, the mean of the May averages of the last ten years.

Spring plowing is more or less late in almost every state in which its condition is a matter of any special significance. The only notable exceptions are Pennsylvania, Kentucky, Illinois, Kansas, Missouri and Arkansas.

The work already done in the country at large is estimated at 65.4 per cent of the total contemplated, the proportion usually done by May 1 being about 75 per cent of the whole.

REPUBLICANSMeet in Mass Convention At
Hardsburg Monday**APPOINT DELEGATES
TO STATE CONVENTION.**

The Republicans of Breckenridge county met in mass convention at Hardsburg last Monday to name delegates to the state convention which meets in Louisville tomorrow, Thursday.

Chairman Kinchloe called the convention to order and stated the object of the meeting.

The Hon. John P. Haswell, Jr., was on motion chosen permanent chairman.

He made a brief speech in which he pledged his support to the party and the administration. He referred to his stewardship at Frankfort and said he stood on his record for he had done what he conceived to be his duty to his people.

Clint Hook was chosen secretary.

The chairman on motion appointed the following committee on resolutions: Jesse R. Eskridge, Senator R. M. Jolly, Capt. J. H. Rowland, Owen Cunningham and Hon. Chas. Blandford.

The committee retired and brought in a set of resolutions, endorsing McKinley's administration and Governor Taylor's administration and the National Convention. They instructed the delegates to vote as a unit for McKinley for President. They were also instructed to vote for the following delegates to the National Convention: Ex-Governor Bradley, Gov. Ayler, Senator Deboe and Albert White.

Jesse R. Eskridge was named as an alternate from the Fourth Congressional District to the National Convention.

The Republican County Committee at a meeting held previous to the convention re-elected Allen Kinchloe chairman, and Clint Hook, secretary, for the ensuing four years.

**IT WAS A
BIG DAY.**People Gather at Kirk Sunday
From all Points, to Attend
The Dedication Ser-
vices.

It Could Not Have Been a More Ideal
Day. Pretty Women Were
There With Their Baskets
Filled to Overflowing.

REV. CROWE PREACHED THE SERMON.

Fifteen hundred people attended the dedication of the M. E. Church at the village town of Kirk Sunday. The day was an ideal one. Men, women and children came from all localities, in buggies, on horse back and by train.

The town of Kirk is situated on the "Henderson route" branch and its inhabitants are of the most wide-awake and industrious kind. The undertaking of constructing such a magnificent house of worship in so small a place, shows conclusively what perseverance and determination can do. Those who were instrumental in pushing its construction forward have the praise of the entire community. They deserve great honors.

The location is near the railroad, in a picturesque and beautiful grove. It is of modern architecture and would do honor to a spot just behind the city. The interior is handsome and artistically finished. Elegant pews adorn it and the altar is daintily, elegantly and surrounded by a railing of the latest design.

Everybody was present with a basket over his shoulder with the substantial life, table cloths were spread upon the ground and the good women began to arrange their contents. The men stood, awaiting with eagerly waiting for the announcement word to reach their ears. They formed in groups and strangers and friends from a distance were invited to partake of their hospitality. An abundance of food was on the ground, and if anyone failed to get a dinner it was his own fault.

After the magnificent spread and all had become rested, they were seated in a spot just behind the church, where a platform had been erected for the choir and the delivery of the dedicatory sermon.

All the members of the Hardsburg M. E. Church South choir were present and numerous hymns were sung. This is probably the strongest and best choir in the State. Their enunciation is clear and distinct, their rendition of songs is of the highest order.

The horse attached to the buggy occupied by Mrs. C. H. Furrow, Mrs. Burch, of Moreyville and Mrs. Jones, of Meade county, who were returning from the funeral of Dr. Furrow's daughter, became frightened and ran away upsetting the buggy.

The buggy was overturned on the ladies who were painfully but not seriously hurt. Mr. Eli Miller, who was near, came to the relief of the ladies and rendered them much aid.

OLD PEOPLE'S DAY.

The 4th Sunday in this month has been designated as the Day.

Rev. F. M. Petty, pastor of the M. E. Church, South, at Hardsburg, has designated the 4th Sunday in this month for the old people's gathering, and the Sunday School rally at Mt. Zion. The church being one of the oldest in point of interest in that section.

He anticipates a large delegation to take part in the Old People's exercises on that day.

There will be dinner on the ground. An invitation is extended to all to come.

GRAND JURY.

The following men form the grand jury of the circuit court now in session at Hardsburg: F. K. Rhodes, foreman, Sam Hall, Mandeville Holloway, O. W. Kasey, Philip Fitch, Homer Hunter, Warden Bandy, Jas. H. Carman, Chas. Reidel, Clint Bruner, Lee Walls and David N. Howard.

Card of Thanks.

We are very thankful to the many friends who so kindly assisted us on the morning of the 9th.

MR. AND MRS. FRANK HASWELL.

**SMOKE IN

Operation By Thursday.**ONE MILLION CONTRACT
TO START ON.**

The wheels of industry have once more begun to turn in this city.

The Patton Vitrified Brick Works after an idleness of two years was running Monday afternoon, preparatory to start in full force this week.

Mr. Geo. C. Patton, President of the company, has had all of the machinery thoroughly overhauled, buildings repaired and fuel cleaned.

He has a contract with Louisville parties to furnish over one million brick. He will make nothing but building brick. When the plant gets in complete operation it will give employment to something near fifty men.

Mr. J. H. Loyd of Louisville has come to take charge of the machinery. He has had years of experience in the business. He will be assisted by Mr. William Harper who will have control of the burning. He is also a Louisville man.

Mr. Kirk Aikison, a sterling young man from Gaston, Meade county, will be in the department of machinery.

"THE LIFE OF NAPOLEON."

[Copyright, 1900, by C. B. Lewis.]

It was a canvasser for "The Life of Napoleon," price \$3.50 in calf, and he had secretly exhibited his sample copy when Major Crofoot arose and took him by the hand and exclaimed:

"Just the man I wanted to see of all others in the world! By George, but this is a book!"

"I shall be happy to book your order," smilingly replied the canvasser. "Will you take calf or morocco?"

"My dear man," continued the major, "my name is on a sign at the door, but it doesn't state my business. Let me say to you that I am a grand promoter of enterprise, an organizer, a consolidator, an originator of some of the most stupendous and gigantic schemes of the country. You have come to the right man in the right time."

"Will you take calf or morocco?" the canvasser repeated the canvasser. "And you are to be our purchasing agent and buy our raw material. Dietary sausage will be made in several different grades and sizes, and we will sell our beef, pork, mutton, fish and what not; everything to be bought alive and killed in our own slaughter houses and cooked up with our own knives. You attend to the buying and I attend to the frying. Millions of dollars will pass through your hands every year, but we shall trust to your honesty; salary \$15,000 per year at least, and you come in on the ground floor for stock. I just lack \$10 to meet the expenses of organization, and I'll borrow it of you for a day or two. We shall capitalize at \$5,000,000, but probably increase to \$15,000,000 inside of a year. And what is the name, please?"

"My name is 'Taylor,' slowly replied the canvasser, "but I have no \$10 to put into your scheme. I'm selling the 'Life of Napoleon.' It is printed from new, large type, illustrated by—"

"Yes, we will call it the Great American Dietary Sausage Company," interrupted the major, "and as purchasing agent we'll deposit \$50,000 to your credit to start on; salary to be paid weekly or monthly, just as you elect, and the dividends on the stock to come quarterly. I need \$10 to see my way clear, but you can't spare that sum give me \$5."

"Don't neglect this golden opportunity, my poor contemporary; don't do it. The man who invented the Welsh rabbit made \$100,000 and lived to be 90 years old. Angel cake brought its inventor \$1,000,000 while he lived and he made 40 feet high after death. Holy pike ice cream won't be in it with dietary sausage. Peanut brittle and lobster tails have already gone to the rear. Why, sir, any moment a telegram may come in with a telegram from the president reading: 'Congratulations on your dietary; have only eaten one barrel and am sure I shall be recommissioned. Send another by express.' The very next mail will probably bring unfettered testimonials from a dozen actresses and four or five senators. It is needless for me to tell you that dietary are dangerous. Thin diet and the dietary sausage wait for no man. If you haven't got \$5, I'll try and make \$3 do. Leave your name and \$3."

"The 'Life of Napoleon'?"

"Yes, my friend, the 'Life of Napoleon,' my Napoleon was a great man, but Major Crofoot wasn't on earth then. We are not dealing in the past, but digging into the future. Where Napoleon made \$100 you'll make \$5,000. Let others conquer the world by force of arms if they will, but we'll conquer it by force of dietary sausage. You've certainly got \$2 about you. I want to get the organization perfected today."

"I've only got a dollar," stammered the canvasser as he exhibited the book.

"Well, I'll take it and make it go as far as it will," replied the major as he snatched the dietary. "You'll feel safer for having invested money in the enterprise. Stock will be ready in about two weeks, and as soon as we can erect and equip a factory you'll begin purchasing stock. Yes, I'll make the dollar do, and you'd better begin putting it up on credit, but we've got to get started!"

"But I came here to sell you this book," said the canvasser.

"When we speak not started, we'll conclude it on eighth page."

HYPNOTISM.

The Influence Of An Active Mind Over A Passive One.

THE COMING SCIENCE.

By Mrs. Mattie Grinnell.

This has been a wonderful century and might be termed the "Wonder Period" of the world's progress. Chemistry, photography, microscopy, hypnotism, telepathy, telegraphy, and many other sciences have made rapid strides. The nineteenth century has given us a noble growth of much rich fruit.

Hypnotism is what we might call a unique or quite an exalted science for just common ordinary, everyday folks to attempt to handle. It contains powers and systems that are beyond the scope of those who are not particularly scientific. Geology pierces the earth and as astronomy takes us to the stars; even so this science carries us to a still deeper one of moulding the human will—the most independent and God-like faculty given and when it comes to yielding up that will to another, we naturally rebel a little.

Prof. Harnad is the world's greatest living hypnotist. He has been termed a "crack" but so have all other enthusiastic, progressive, scientific people. Galileo, Sir Isaac Newton, even Columbus, Morse, Edison, and many others have been placed in the same category with him. I have noticed for a year or more that progressive legislators, jurists, physicians, teachers, nurses, employers and in fact all persons who are required to influence others either in public or private life have been believers in this science to a certain degree. The influence of one mind over another is almost like an anaesthetic in surgery or in the sick room. When a child is ill the influence of the mother's or father's mind over it is something miraculous. I believe that is hypnotism. I believe one mind must be more passive than the other but not necessarily weaker in intellect, if adults are the subjects. Though we have never witnessed any startling phenomena of the science, why should not we believe what we read and have heard others tell?

I believe in instantaneous hypnotism—a mother's hands on the brow of her child to relieve or alleviate pain or a wife's ministrations to a husband who is suffering. This is not miraculous but truly a scientific fact. We should not at this age ever refuse to believe in anything that doesn't conflict with orthodox religious belief. Religion and science should go hand in hand. Our minds should be swept clear of all superstition and also of all antique prejudices and rustic misconceptions. All sciences and discoveries should be accepted as a trust and should be used for the good of human beings and for the honor and glory of God.

This century has developed many remarkable ways of inter-communication too, which no doubt the coming century will carry on to greater perfection. Time space, matter, will be wonderfully subjected by the mind of man. I believe two persons in close mental sympathy with each other, who have a great deal of affinity, can transmit and receive thought a hundred miles a part. The twentieth century will greatly increase, no doubt, the facilities of inter-communication between minds. Why not? What have steam and electricity done? I believe in brain communication as much as by telegraph or telephone. I believe in mind waves as much as in the ebb and flow of the ocean's waves. The theory is not new as indicated in that of re-producing in a phonograph the voice of one whose very accents and tones we recognize, long after that voice is still in death.

Does It Pay To Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you then in either case take the only medicine that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boech's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by—A. R. FISHER.

Gossamer Jokes.

He-I know a man who would be willing to give \$1,000 to hear you sing. She—Totally deaf, I presume? He—Yes. And after had heard her he would give another thousand dollars to be deaf again, I imagine. An Exclamatory Name.

"O, Mye," called the justice in the Harrison street police court today, and a silence fell over the room, while the crowd looked around to see why the justice had uttered the sudden exclamation.

"O, Mye! O, Mye!" again called the justice, and the crowd looked around to see why the justice had uttered the sudden exclamation.

"Call O, Mye, Mr. Bailiff," ordered the court, and Barnett repeated the words in tones that could be heard on the street. The officer glared about for the person who he thought was guilty of contempt of court, and when a meek appearing man left his seat and walked toward the bar, Barnett seized him and declared him under arrest.

"Is this the man who is guilty, your honor?" asked the bailiff.

"What is your name?" asked the court, without heeding Barnett's question.

"O, Mye," answered the prisoner, and the bailiff took a tighter hold on his collar.

"O, Mye?" queried the court.

"Yes, your honor," from the prisoner. Then it dawned on the bailiff that he had made a mistake. O, Mye, who said his first name was Oliver, had been arrested for begging on the street. When the policeman who arrested him told him that he had abused several persons who had refused him alms, his name was uttered by several in the court. The prisoner likewise said "O, Mye" when he got a fine of \$50.—Chicago News.

Never Admit Defeat.

Never admit defeat or poverty, though you seem to be down and have not a cent. Stoutly assert your divine right to be a man, to hold your head up and look the world in the face. Step bravely to the front whatever opposes, and the world will make way for you. No one will insist upon your rights while you yourself doubt that you possess the qualities requisite for success. Never allow yourself to be a traitor to your own cause by undermining your self confidence.

There never was a time before when persistent, original force was so much in demand as now. The nobby pamper, the nervous man has little show in the hustling world of today. In the twentieth century a man must either push or be pushed. Every one admires the man who asserts his rights and has the power to demand and take them if denied to him. No one can respect the man who slinks in the rear and apologizes for being in the world. Negative virtues are of no use in winning one's way. It is the positive man, the man with original energy and push, that forges to the front.—Success.

It acts immediately and cures coughs, colds, croup, gripes, bronchitis, asthma and all throat and lung troubles.—A. R. Fisher.

The Independent Farmer

The farmer does not have to solicit the patronage of any one. He does not have to enter into competition and strife with his neighbors like the merchant; he does not have to warp the truth like some people. In fact, he can be the most independent man on God's green earth if he manages his affairs in a business-like manner. He has more time and equal opportunities for improving his mind; he has less allurement for corrupting his morals, and his occupation is conducive to the highest development of his physical power. He can be on intimate terms with his whole family, at peace with the world, and can worship God "under his own fig tree, none daring to molest or make him afraid."

Dewey Gave Her A Gavel.

Admiral Dewey has presented to Mrs. Lizzie S. Holding, regent of Sarah Trumbull chapter, Daughters of the American Revolution, of Rockville, Conn., for the use of the chapter, a gavel, made from oakwood taken from the port side of the flagship Olympia while under repairs at the Charlestown yard. In artistic beauty and historical value, together with the personal favor conferred, is much appreciated by the Daughters of the Rockville chapter. The gavel is small and especially adapted for the use of a woman. The shape is novel, the handle being tastefully beaded, and the head carved in a handsome figure. The gavel is inclosed in a handsome box.—Springfield (Mass.) Republican.

White of the Bofled Egg Unfit to Eat.

Very few persons can eat the white of a hard-boiled egg with any degree of comfort. Eggs are highly nutritious and easy of digestion when lightly or undercooked. The albumen, the white of the egg, coagulates as soon as it is dropped into hot water. The long boiling renders the yolk soft and mealy, but the whites become tough and indigestible, and should be discarded.—May Ladies' Home Journal.

AT REST.

Mrs. Anna Goff Harris Died At Tobinsport Thursday, May 3rd.

Mrs. Anna Goff Harris, aged seventy eight years, died at the home of her daughter, Mrs. Chas. Adams, at Tobinsport, Ind., Thursday, May 3rd. Murr conducting the services.

Mrs. Harris was loved and respected by all who knew her and will be greatly missed.

Strawberry Fishing In Chille.

A singular custom prevails in Chille which in these days of aseptic precautions will cause a shudder among those who see infection lurking in every detail of life. It is called strawberry fishing and is conducted in this fashion:

At the close of a dinner the cloth is removed, and there is placed upon the table an immense bowl into which are emptied half a dozen bottles of Bordeaux wine, four of cherry and two of rum, besides sugar and nutmeg. Into this mixture is put a very large strawberry, which floats upon the surface. The bowl is provided with two handles. These are used to lift the vessel and tilt it so that the strawberry may be brought near the edge and sucked into the mouth. This would appear an easy feat, but it is a difficult one, as the fruit rolls over when touched with the lips. The contestant in the effort swallows a considerable quantity of the liquid concoction.

This is the reason for the game, for the bowl is passed from one to the other many times in succession before the strawberry is captured. When that moment finally arrives, all of the guests have reached a ripe stage of hilarity. This is the game as it is played among the higher classes. Among those of a lower social standing the fiery liquor of the country is substituted for wine. With them strawberry fishing develops into a function compared to which a fighting match held in this town is the recreation of a group of peace seeking Quakers.—New York Sun.

Lincoln's Coolness.

Thomas F. Prudden, for 35 years a doorknocker at the executive mansion, used frequently to accompany President Lincoln on his walks about town and has many interesting things to tell of that great man, whom he believes to have been one of the bravest men the world has ever known.

On one occasion Fremont was walking with the president down a flight of steps at the navy department when they came suddenly upon a man who was evidently endeavoring to hide himself in a dark corner at the bottom of the staircase. Observing the stranger and fearing he meant harm to the president, Fremont essayed to place his body in a position to protect his companion.

Mr. Lincoln, however, brave and fearless as always, stepped forward and closely scrutinized the man, who ran rapidly up the steps and, turning quickly around when he reached the top, looked down upon the president, who did not falter, but continued to gaze sharply at him. On their return to the White House Mr. Lincoln said quite calmly, "Fremont, do you know I received a letter last night warning me against a man who exactly answered the description of that man we met on the steps?"—Leslie's Weekly.

Cedars Twenty Centuries Old.

Some cedars are undoubtedly more than 2,000 years old, for, though on good moraine soil they grow about as fast as oaks, on bare pavements and smoothly glaciated overworn granite ridges in the dome region they grow extremely slow.

One on the Starr King ridge, only 2 feet 11 inches in diameter, was 1,140 years old. Another on the same ridge, only 1 foot 7½ inches in diameter, had reached the age of 834 years. The first 15 inches from the bark of a medium sized tree—6 feet in diameter—on the north Tenaya pavement had 859 layers of wood, or 57 to the inch. Beyond the 8 to 10 feet thick, standing by dry rot and overgrown wounds.

The largest I examined was 33 feet in girth, or nearly 10 feet in diameter, and, though I failed to get anything like a complete count, I learned enough from this and many other specimens to convince me that most of the trees 8 to 10 feet thick, standing on polished glacier pavements, are more than 20 centuries of age rather than less. Barring accidents, for all I can see, they would live forever. When killed, they waste out of existence about as slowly as granite.—John Muir in Atlantic.

Stock.

"And you are stuck on your last husband?" we faltered, wishing to seem very sympathetic.

A beautiful woman burst into tears.

"I never was so badly stuck on a husband in all my life!" she sobbed. "I suppose he was worth a million, and he isn't worth anything!"

In our material age, the word stock has lost much of its tenderly sentimental significance, and is mostly used, as here, in its technical commercial sense.—Detroit Journal.

Tony's Easy Job.

"Got a letter from Tony the other day," said Aunt Hepzibah Linclupin.

"What he do?" asked the caller.

"He's makin' a livin' 'bout doin' anything, he says. He's got a position with a lot of rich men that have a clubhouse and play some kind of game. I've forgot what it is, but anyway all Tony's got to do is to carry a bag with sticks in it, and the man use the sticks and do all the work."—Chicago Tribune.

THE FAMOUS PLANO FLY-WHEEL ATTACHMENT

Is furnished with the Jones Lever Binder. It is a most valuable attachment because:

The Fly-Wheel causes a binder to work even, steady motion over rough, uneven ground.
The Fly-Wheel causes a binder to be bound tightly without checking the motion of the machine.
The Fly-Wheel causes a binder to run lightly over soft or wet ground, where it would otherwise sink down.

The Fly-Wheel causes a binder to remain in motion while turning a corner.

The Fly-Wheel causes a binder to be bound and discharged after the team stops, leaving the sickle and knives absolutely clean.

THIS VALUABLE ATTACHMENT IS FURNISHED ONLY WITH THE JONES LEVER BINDER.

The Jones Lever Binder has the simplest knoter in the world, and it has one-half less pieces than its simplest rival. It is the most perfect in the world.

Farmers, it Will pay You to See this Machine.
We handle all the leading brands of High-grade Fertilizers for Tobacco, Corn, Wheat and Potatoes. Steam Thrashers, Boilers, Saw Mills and Engines. Flour Mill, Feed, Cycle Grinders, Etc.

HAVE YOU SEEN

HANSEN'S

Wonderful Calculating Pencil?

The Pencil that figures with a twist of your wrist?
That figures quicker than you can and never makes a mistake?
That calculates anything from 1x13 to 12x24 in the twinkling of an eye?
That gives you hundreds of calculations with the swiftness and accuracy equaling an expert? Have you seen it?

CAN YOU BEAT IT?

Can you tell as quickly as the pencil, for example, how much 11x24.00 is? or 9x1.80? or 23x120?
"It is truly a little wonder," says the Pittsburgh Press.
"It is a marvel of ingenious mechanism and has excited a great deal of interest among our readers," says the Boston Traveler.
"An article of the greatest educational merit," says the Youth's Companion.
"It is the greatest educational novelty of the day," says the Detroit Free Press.

25c. Value. Special Introductory Price 15c.

THE EDUCATIONAL VALUE

Of this Arithmetical Pencil is based on the highest Multiplication Table it contains. Every person should know it. Yet many never learn it. They are thus hindered in acquiring quickness and accuracy in mental calculations so necessary to business success. It is especially recommended to young people starting in business life and to those with neglected education. Teachers recommend it to their pupils because the use of the pencil imparts a knowledge of these figures in 1/2 of the time required by the usual methods. Even the Indian office of the U. S. government has recognized its educational merits and recommended that the superintendents of all Indian schools be supplied with samples.

THE CALCULATOR

Is made of pure Aluminum and attached to a pencil of standard quality. It fits any common lead pencil. It also has the advantage of being a pencil point protector, a pencil lengthener and an eraser, and it can be carried in the vest pocket.

DIRECTIONS:

Revolve the windowed tube by turning pencil, until the figures you wish to multiply on the tube underneath the figure on top cap. The product will appear in window underneath. To multiply 9x1.80, turn 9 on tube under 18 on cap, from the product, 162, shown in window, point off the last figure as cents (\$16.2) and add cipher.

An Epidemic For Whooping Cough.

That winter during an epidemic of whooping cough my children contracted disease, having severe coughing fits. We had used Chamberlain's Cough Remedy very successfully for a long time and naturally turned to it at that time and found it relieved the cough and cured a complete cure—John E. Child, Proprietor, New York, N. Y. This remedy is for sale by J. B. Fisher, Cloverport, R. A. Shell, Stephens.

Childlike Confidence.

At this unusual season of the year, when all animate things are full of hope and joy and anticipation, nothing in the whole realm of nature is more beautiful than the childlike confidence of Prohibitionists that their party is marching on to assured victory in the near future. The more one contemplates their simple, unreasoning faith the sublimer it seems.—Ex.

FOR SUMMER WEAR.

The Different Designs Used In Making Organdies And Other Thin Dresses.

Organdies and all materials for summer frocks are now being made up in many different designs. The same style that has been fashionable for the last few years, of trimming with lace insertion and embroidery, is still popular, and the lines of either the lace or the embroidery are put on in many different styles.

They will outline an apron front, a pointed front, trim the flounce that goes around the skirt, or else trim three flounces in succession, or the bands of lace are put between rows of narrow tucks. The newest skirts of all are those that have rows of shirring around the sides and back, but this is a fashion that is very rarely becoming, so that some companies will have to be effected.

One compromise is to have the rows of shirring just in the back and put on so as to form a V-shape, thus giving a longer line, or the front will be plain. There will be some narrow pleats across the hips and then the back again will be plain.

For young girls there are rows of shirring that come well below the hips, the rest of the material being left to hang plain, but even for young girls the rows of shirring around the hips are unbecoming to the figure, and consequently the tucked and pleated effects are preferred.

Elegant Oddities.

"I came across a colored man who spoke with a German accent the other day," said a prominent stockholder. "I dropped into a restaurant not far from the city hall for lunch, and the waiter who took my order, although unmistakably a colored man, spoke as though he had just come from some Pennsylvania Dutch settlement up the state. The thing was so pronounced that I spoke to the proprietor about it and found that my suspicions were correct. The man was a full blooded negro, but he had been born and raised in a small town near Reading and had always associated with the whites who spoke Pennsylvania Dutch. Queer, isn't it?"

"Oh, I don't know," said one of the party whose business takes him through the west. "A short time ago I came across a German who spoke English with a decided Irish brogue. He was an educated young fellow, a graduate of a German university, and he was very anxious to learn English. He drifted out to Chicago and from there to a lumber camp up in Wisconsin. Here, he thought, would be an excellent chance to learn the language. But all the men in the camp were Irishmen. Of course the young German didn't know that, and he fell readily into their mode of speech. At the end of a year he returned to Chicago, very proud of having mastered our tongue, and was greatly surprised to discover that he had a brogue. That was several years ago, but he has never lost it. It clings to him as closely as though he had been born in County Antrim."—Philadelphia Record.

Evidence Lacking.

In 1870 the contractors' firm of Comstock & White was doing business at Fort Wallace. In the course of a quarrel Comstock killed White. White had a brother in New York City, who came out to visit the lav upon his brother's slayer. Comstock was arrested and brought before Judge Joyce at Hays City. The prisoner walked into the courtroom (Judge Joyce's saloon) with two big six shooters belted to his hips.

"Witness Comstock, you are charged with willful murder. Are you guilty or not guilty?" asked the judge.

"Guilty," was the laconic response.

This was entirely beyond Judge Joyce's calculations. He had no precedent for such a case and no power or inclination to visit out a penalty, and so, with great indignation, he shouted:

"You are a fool for telling me! Did any man ever see you do it?"

"No," was the prisoner's response.

"This O. I. discharge you for want of evidence," declared his honor, and thereupon all the boys moved up to the bar and "sounded" with Mr. Comstock.

But imagine the feelings of Mr. White of New York, who had come to avenge his brother's slaying.—Kansas City Journal.

The Russian Penitent.

It is asserted by those who have lived among them that the worst types of modern European civilization are probably the Russians. While writers and travelers vary as to the nature of Russia, nearly all are agreed as to the utter degradation of the Russian peasant. He is always on the verge of starvation and is abjectly improvident, while his gross and complete ignorance is combined with the most extravagant superstition. Like all low natures, he is thoroughly distrustful of reform, and as a climax to his infirmities he is a confirmed drinker.

Middle class in Russia there is practically none. The small shopkeepers combine exorbitant charges with shabby and unattractive goods. Manufacturers and producers are nearly all foreigners, and the larger trade of the country is chiefly in German hands. Education after the lapse of several generations removes the inherent dulness of this people, but it will be no easy matter to root out evils which are the growth of centuries of serfdom and distress.—Cleveland Plain Dealer.

"DeWitt's Little Early Remedy" are the best pills I ever used.—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel troubles.—A. R. Fisher.

CANCER IS NOT INCURABLE

Time was when Cancer was considered as incurable as leprosy.

Physicians and friends could give little relief or encouragement to one afflicted with this terrible disease. Even now doctors know of no remedy for this fearful malady; while admitting it to be a blood disease, they still insist that there is no hope outside of a surgical operation, and advise you to have the Cancer cut out, but at the same time cannot assure you that it will not return. You may cut or draw out the sore, but another will come in its place, for the disease is in the blood—is deep-seated and destructive, and beyond the reach of the surgeon's knife or caustic, flesh-destroying plasters. The blood must be purified and strengthened, the system relieved of all poisonous, effete matter before the Cancer sore will heal.

S. S. S. is the only medicine that can overcome this powerful and contaminating poison and force it out of the blood. It builds up and invigorates the old, and supplies new, rich, life-giving blood. S. S. S. is a purely vegetable remedy; no mineral can be found in it; the roots and herbs from which it is made contain powerful purifying properties that act directly upon the blood system and make a safe and permanent cure of Cancer. It has cured thousands, why not you?

Cancer is not always inherited; your family may be free from any taint, yet your blood may become so polluted that a severe and stubborn form of the disease may develop from a sore or ulcer on your tongue or other part of your body; a slight bruise or little nimple on the eyelid, lip or nose, a small lump on the jaw or breast, a harmless looking wart or mole, or other causes so insignificant as to attract little or no attention. If you have an obstinate sore, don't rely upon salves or ointments to cure it—begin with S. S. S.

Mr. R. Shiner, La Plata, Mo., writes: "A small pimple came on my jaw about one inch below the ear, and it gave me no trouble, and I did not think it was anything serious until the jaw began to swell and became much inflamed. At the same time the sore began to spread and eat into the flesh, and gave me intense pain. I tried everything I could find, but nothing did me any good. I then began the use of S. S. S., and after taking several bottles the Cancer healed, and there is now no trace of the disease. This was two years ago, and I am still enjoying perfect health."

Send for our special book on Cancer; it contains much information that will interest you; it is free.

Write our physicians about your case, and for any advice or information wanted; they have made a life study of Cancer and all blood diseases. We make no charge whatever for this.

CRITICAL PERIODS

In Woman's Life Are Made Dangerous ones by Felvie Cathart.

Mrs. Mathilda Richter, Doniphan, Neb.

"I suffered from catarrh for many years, but since I have been taking Peruna I feel strong and well. I would advise all people to try Peruna. As I used Peruna and Man-a-Lin while I was passing through the change of life, I am positively convinced your beneficial remedies have relieved me from all my ills."

Peruna has raised more women from beds of sickness and set them to work again than any other remedy. Felvie Cathart is the name of womanhood. Peruna is the name of catarrh in all forms and stages. Mrs. Col. Hamilton, Columbus, O., says: "I recommend Peruna to women, believing it to be especially beneficial to them."

"A Good Name is Better Than Riches."

Hood's Sarsaparilla is a good name. A legion of those who owe health to its blood purifying qualities laud it to the skies. It brings the riches of health to those who use it, in the shape of absolutely pure blood, the permanent foundation of health.

Weakness—"I was all run down, weak and without appetite. A friend brought me a bottle of Hood's Sarsaparilla. I began taking it and three bottles entirely cured me." Mrs. M. A. Logan, 127 Post Street, Portland, Me.

Blood Purifier—"We think Hood's Sarsaparilla has no equal as a blood purifier and invigorator of the system." J. B. Best, Woodbury, N. J.

WORKED THE AGENT.

Up at just 1,000 tons per week, and you must be able to tell a glance whether the meat is juicy enough for our purpose. That's all, and there you are, and I'll send for you when the papers are ready to be signed. I think we'll make the ground floor on stock 20 cents, but maybe we can scale that figure down a little. At any rate, there you are, and you can have every convenience that your customers desire. Turn to the right, please, and good day—good day.

"But listen a minute. I came up here to sell you."

"And don't give me away—don't do it," cautioned the major as he pushed his collar down. "You're a mum and saw wood until your patent is secured, and then we'll jump on the whole world with both feet and bomb dietary usage even to the drawing rooms of royalty. Ground floor—\$15,000 per year—good opportunity. Don't miss it."

A minute later the canvasser found himself on the street, and when he was asked what had happened to him he looked on in amazement.

"Why, I went up to sell a man a \$3.50 subscription book, and I'll be damned if he didn't turn me out and get my only dollar in cash besides."

Hardinsburg is a delightful place for those city folk who want to spend the summer months from home. The town is quiet and orderly and one of the healthiest points within sixty miles of Louisville.

The pension checks came in last week. It's wonderful the money Uncle Sam sends about in this way. A lot of fellows depend on this for the best part of their living, and it's little money they handle outside of their pension checks.

Miss Mattie Hook, who has been teaching a private school at her mother's, closed the session last Friday. The school has been quite a success in a small way, and when the young pupils left last Friday, Miss Mattie gave them a nice little treat of candies, etc.

A committee has been appointed to canvass the town in the interest of famous Dr. Bell's Kidney and Bladder Pills. It is said that we have been so long taking hold of this but no time will be lost now to give every man, woman and child an opportunity to divide their bountiful supply with their suffering neighbors.

Mr. Benson Wright, President of the Mayfield Woolen Mills, was here last week visiting Mrs. Bowmer. The institution of which Mr. Wright is President employs seven hundred hands, and they turn out one hundred dozen pairs of pants a week. Their pay rolls is from fifteen hundred to two thousand dollars every week.

This old town puts on a good many airs during week of circuit court. You see there are a good many strangers in town, and they move about seeing things and spending a little money. About the only thing you see a store pipe late when some visiting lawyer comes in to do up the crowd that stays here all the time, and this is during the big court. Oh, we are awfully proud when the Judge and big lawyers all get in here.

These beautiful spring days and the cheap rates on the railroad are taking a good many folks to Louisville to do their shopping. This is a little hard on the local merchant who sees his best time to lay such goods as he thinks will please his customers, but he has to stand it. And should he have the ideal thing, out of five hundred other things, that a customer wants, they go to the city where they spend what little cash they have.

Children who are weak, fretful or troublesome should be given a few doses of **WHITE'S CREAM VERMIFUGE**. They will then become strong, healthy and active, have rosy cheeks, bright eyes, will be happy and laughing all the day long. Price, 25 cents.

OVERWORK

You know all about it. The rush, the worry, the exhaustion. You go about with a great weight resting upon you. You can't throw off this feeling. You are a slave to your work. Sleep fails, and you are on the verge of nervous exhaustion.

What is to be done? Take

Ayer's Sarsaparilla

For fifty years it has been lifting up the discouraged, giving rest to the overworked, and bringing refreshing sleep to the depressed.

No other Sarsaparilla approaches it. In age and in cures, "Ayer's" is "the leader of them all."

It was old before other Sarsaparillas were born. **Ayer's Pills** aid the action of Ayer's Sarsaparilla. They cure biliousness. 25 cts. a box.

"I have used Ayer's medicines for more than 40 years and have never from the very start that you made the last medicine in the world. I am sure my Sarsaparilla saved my life. I first took it 40 years ago. I am now past 70 and am never without your medicine."

WOMANHOOD INDICATOR

CHANGING LIFE

The Time Comes

to every elderly woman when an important functional change takes place. This is called "The Change of Life." The entire system undergoes a change. Dreadful diseases such as cancer and consumption are often contracted at this time.

McLEER'S Wine of Cardui

strengthens and purifies the entire system, and brings the sufferer safely over these pitfalls. Its effects have been wonderful. It is good for all menstrual troubles, but is especially recommended at this time. Ask your druggist for the famous Wine of Cardui. \$1.00 a bottle.

For advice in cases requiring special directions, address the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOMAS J. COOPER, Tappan, Miss., writes: "My sister suffered from irregular menstruation and doctors could not cure her. After using Cardui, my sister was cured, and also helped my mother through the change of life."

Nellie Ashley is at Shrewsbury and Sadler visiting this week.

Jess Seaton lately visited his uncle, Owen Seaton, near Balltown.

Billy Mattingly was laid up with a rising on his hand last week.

For Malaria, Chills and Fever

THE BEST PRESCRIPTION IS
Grove's Tasterless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasterless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the **Original** and that all other so-called Tasterless Chill Tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
